6. What Are Cookies?

Cookies are a feature of Web browser software that allows Web servers to recognise the computer used to access a Web site. Cookies are small pieces of data that are stored by a user's Web browser on the user's hard drive. Cookies can remember what information a user accesses on one Web page to simplify subsequent interactions with that Web site by the same user or to use the information to streamline the user's transactions on related Web pages. This makes it easier for a user to move from Web page to Web page and to complete commercial transactions over the Internet. Cookies should make your online experience easier and more personalized.

7. How Do We Use Information We Collect from Cookies?

We use Web site browser software tools such as cookies and Web server logs to gather information about our Web site users' browsing activities, in order to constantly improve our Web site and better serve our customers. This information assists us to design and arrange our Web pages in the most user-friendly manner and to continually improve our Web site to better meet the needs of our customers and prospective customers.

Cookies help us collect important business and technical statistics. The information in the cookies lets us trace the paths followed by users to our Web site as they move from one page to another. Web server logs allow us to count how many people visit our Web site and evaluate our Web site's visitor capacity. We do not use these technologies to capture your individual email address or any personally identifying information about you although they do permit us to send focused online banner advertisements or other such responses to you.

8. Sharing Information with Affiliates

From time to time you may notice offers from outside companies advertised on our Web site. We take measures to select product or service providers that are responsible and afford privacy protections to their customers. However, we cannot make any representations about the practices and policies of these companies.

9. Sharing Information with Strategic Partners

We may enter into strategic marketing alliances or partnerships with third parties who may be given access to personal information including your name, address, telephone number and email for the purpose of providing you information regarding products and services that we think will be of interest to you. In connection with strategic marketing alliances or partnerships, we will retain all ownership rights to the information, and we will not share information regarding your social security number or other personal financial data.

10. How Do We Secure Information Transmissions?

Personal credit card and payment information is managed by Paypal and is not sent to our Site.

Other email that you may send to us may not be secure unless we advise you that security measures will be in place prior to your transmitting the information. For that reason, we ask that you do not send confidential information such as Social Security or account numbers to us through an unsecured email.

11. How Do We Protect Your Information?
